KITCHEN TOOLS FOR EVERY TASK PRECISION MEETS STYLE

The little red pocket knife with the Cross & Shield emblem on the handle is an instantly recognizable symbol of our company. In a unique way, it conveys excellence in Swiss craftsmanship, as well as the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the “Original Swiss Army Knife”: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles for more than 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions for life’s adventures, both great and small.

Victorinox's expertise in high-precision steel processing is also reflected in its “different knife categories for” household and professional use”.

Our household knives meet the highest standards of design excellence. We have something for everyday cooks and passionate home chefs. The wide range of models covers all needs, from slicing, dicing, chopping and grating to blocks and boards.

The professional knives are durable precision instruments with nonslip handles and an exceptionally long service life. And they are easy to sharpen. Their ergonomics means experts can use them all day without tiring their hands “what is very important for” skilled butchers and seasoned chefs.

Carl Elsener
CEO Victorinox

HISTORY

1884 – 1897

(VICTORIA)

1884 – 1897

- 1884** Karl Elsener I opens a knife cutler's workshop in Ibach-Schwyz. His mother Victoria actively supports him in his endeavors.
- 1891** Karl Elsener I establishes the Association of Swiss Master Cutlers. As a result, he is able to deliver the first major supply of soldier's knives to the Swiss Army.
- 1897** The original Swiss Officer's and Sports Knife is patented. It is known around the world today as the "Swiss Army Knife".

1909 – 1945

- 1909** In memoriam of his mother, Karl Elsener I chooses her first name Victoria as the brand name and registers the emblem with the cross and shield as a trademark. Today it is a registered trademark in over 120 countries.
- 1921** The invention of stainless steel (Inox) is a highly significant development for the cutlery industry. The combination of the two words "Inox" and "Victoria" results in today's company and brand name – Victorinox.
- 1931** Carl Elsener II introduces automation. In 1931, Brown Boveri is commissioned to set up the world's first all-electric hardening plant in Ibach. This guarantees that all knives are of a consistent high quality.
- 1945** US soldiers stationed in Europe after World War Two buy it in large quantities and it is a popular souvenir to take home.

1950 – 1984

- 1950** Carl Elsener III takes over the company management.
- 1977** The Original Swiss Army Knife becomes an exhibit for design at the Museum of Modern Art in New York.
- 1978** Nasa orders 50 Officer Knives Master Craftsman for the Space Shuttle program.
- 1979** Transformation of sole proprietorship "Messerfabrik Carl Elsener" into the family-owned company "Victorinox AG."
- 1984** The company doubles its manufacturing and office space.

SWISS MADE

Victorinox is an authentic Swiss brand with a strong history and heritage. The Swiss place great value on practicality; they take pride in innovation, quality and expertise.

We are no different. We ourselves want authentic, high-quality goods so that is what we make. If we need new ideas to get there we innovate, we collaborate until we have them. We do the job right and finish it properly, so we can take pride in our work, so it speaks for itself.

We make sure our products are reliable so that consumers can trust they are getting exactly what they want. For the office, the kitchen, the long-planned trip or the hike all the way up a mountain. Swissness and the active lifestyle of Swiss people are included in all products, so that customers will feel confident they are ready to face every day's adventure.

In addition to the tried and tested Victorinox quality, the leading features in this product category are ergonomic design and easy handling.

VALUES OF AN AUTHENTIC SWISS BRAND

We make products the way we would like to have them ourselves. This means in outstanding Swiss quality, with solution-oriented functionality. We believe in innovation for smart, creative and contemporary products and services. And our no-frills iconic design is based on simple, distinctive and clean lines. Our Brand Values are defined by our promise to our customers, which describes how they will benefit from our products.

QUALITY

Seit 1884 produziert Victorinox ein exklusives Sortiment an Haushalt- und Berufsmessern in Ibach - im Herzen der Schweiz. Über 130 Jahre Erfahrung liegen diesen hochqualitativen Produkten zugrunde.

FUNCTIONALITY

Speziell definierte Legierungen gewährleisten eine lange Lebensdauer. Dank lasergeprüfter Schnittwinkel bleiben die Messer sehr lange scharf. Speziell entwickelte Griffformen garantieren sicheres und müheloses Arbeiten.

INNOVATION

Mit der Auswahl innovativer Klingenstähle und Griffmaterialien entstehen bei perfekter Verarbeitung ganz spezielle Produkte. Diese technologischen Innovationen ergeben zeitlose Funktionalität.

ICONIC DESIGN

Design und Funktionalität stehen bei den Victorinox Haushalt- und Berufsmessern im Einklang. Neben einer zeitlosen, schlichten Ästhetik sind vor allem herausragende Funktionen ein unabdingbarer Bestandteil von gutem Design.

SUSTAINABILITY

The issues of environmental protection and sustainability are high priorities at Victorinox. In both our internal operations and those of our suppliers, the company makes sure to use resources sparingly and efficiently while employing environmentally friendly production methods. Here are some examples:

CLOSED-LOOP COOLING SYSTEMS

Thanks to closed-loop cooling systems, the heat generated by our production facilities is fed into the pumps for the heating and warm water systems. In this way, our demand for fresh water is limited to emergency cooling.

55 % RECYCLED WASTE

An integrated waste disposal plan for solid and liquid waste involves all employees in the recycling of resources and reduction of waste. Around 55% of waste is recycled.

PHOTOVOLTAIC SYSTEM

A photovoltaic system installed on the factory building in Ibach has been producing power for the company's own use since April 2016.

1,300 M² OF SOLAR PANELS

With the help of 1,300 m² of solar panels on the roof of the facility, around 220,000 kWh of energy are generated per year. This covers around 2% of the energy consumption of our factory. We also get hydroelectric power from nearby rivers and reservoirs, and the energy generated by production is used to heat the factory and 120 nearby homes.

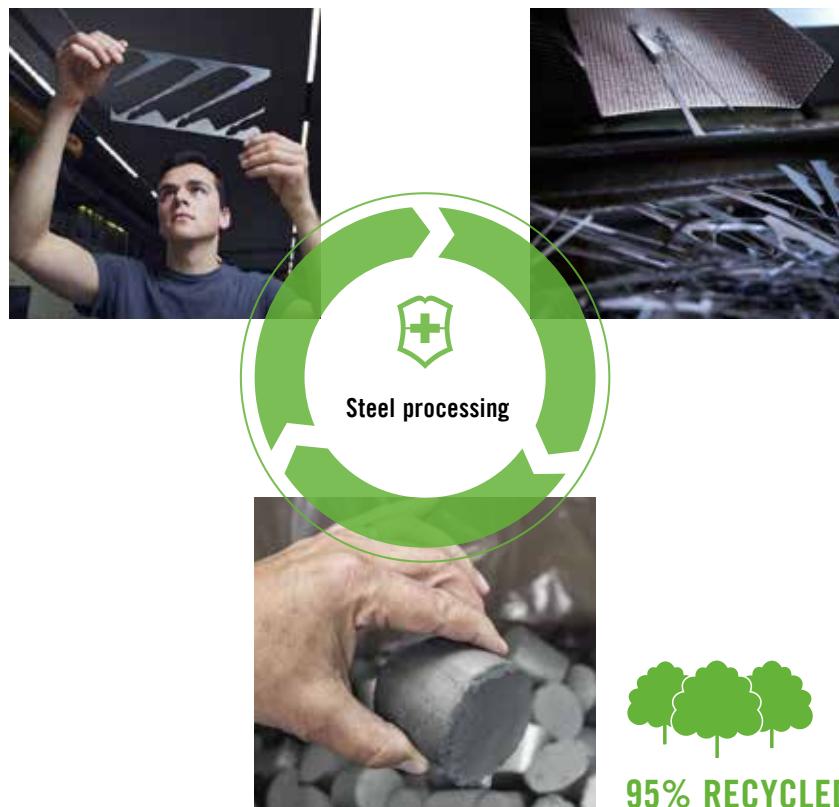

RECYCLED PACKAGING

Up to 90% of our cardboard packaging is made from recovered paper and 100% is made from chlorine-free bleached paper. The inks and finishes that we use do not contain any solvents or heavy metals.

MORE DETAILS ON HOW WE RECYCLE STEEL AT VICTORINOX:

All the steel we use – the most important raw material in the manufacture of our knives – is 95% recycled. Around 600 tons of grinding sludge is then produced as a by-product in the processing of that steel. In order to ensure that this by-product can be disposed of properly, Victorinox has developed recycling facilities that are unique within the industry. The water contained in the sludge is absorbed and the steel particles are pressed into briquettes so they can be properly recycled.

95% RECYCLED STEEL

STAINLESS STEEL

All steel blades are made of martensitic stainless steel. The basis for optimum function and durability of a blade, is the use of the correct steel alloy. The steel should deliver the perfect combination of cutting edge retention and corrosion protection. It should also be flexible, so it does not break during use.

The following steel alloys are used for household and professional knives:

MATERIAL NO.	ABBREVIATION DIN	ABBREVIATION AISI	C (%)	CR (%)	MO (%)	V (%)
1.4419	X38CrMo14	420	0.36 - 0.42	13.0 - 14.5	0.60 - 1.00	
1.4034	X46Cr13	420	0.43 - 0.50	12.5 - 14.5		
1.4116	X50CrMoV15	440A	0.45 - 0.55	14.0 - 15.0	0.50 - 0.80	0.1 - 0.2
1.4110	X55CrMo14	440A	0.48 - 0.60	13.0 - 15.0	0.50 - 0.80	≤ 0.15

All Victorinox alloys are in accordance with Regulation (EG) no. 1935/2004 for products that come into contact with food.

HANDLE MATERIALS

MATERIAL	DESCRIPTION	PRODUCTS
Polypropylene 	Polypropylene exhibits good strength, rigidity and hardness. It is suitable for sterilization and can be used at temperatures of up to 80 – 100°C.	Swiss Classic,  80-100
Thermoplastic elastomers 	TPE combine the easy processing of thermoplastics with the beneficial properties of elastomers. They are extremely flexible over a wide range of temperatures, very strong and benefit from good impact and notch impact strength, even at low temperatures. TPE materials can be used at temperatures of up to 80 – 110°C.	Fibrox, Swiss Classic  80-110
Polypropylene, Thermoplastic elastomers	The Fibrox Dual Grip is made up of a polypropylene (PP) interior and a thermoplastic elastomer (TPE) exterior. PP offers strength, rigidity and hardness; it is suitable for sterilization and temperatures of up 80°C – 100°C. TPEs are very robust with good general and notch impact strength, even at low temperatures. They can be used at up to 80°C – 110°C.	Fibrox Dual Grip  80-110
Walnut Wood*	Walnut wood is very durable, robust and strong. This natural product is known for its noble color and unique grain, which makes each knife unique.	Swiss Modern Wood
Polypropylene Copolymere 	Polypropylene copolymers have good strength, stiffness and hardness. It can be sterilized and has a maximum temperature resistance of 80 -100 ° C.	Swiss Modern Synthetic  80-110
Polyamide 	Polyamide is extremely strong and combines excellent rigidity with high impact strength. It benefits from good abrasion resistance and sliding properties, can be sterilized and is suitable for use at temperatures of up to 80 – 110°C.w	Swibo  80-110
Modified Maple Wood*	Modified maple wood is stable, hard and guarantees a long service life. It is also resistant to rot, fungi and other wood-destroying micro-organisms. It is an easy-care material that does not require any additional treatment such as oil or other impregnation solutions apart from normal cleaning.	Grand Maître, Wood
Polyoxymethylene 	POM features excellent strength, hardness and dimensional stability over a wide range of temperatures. It benefits from good abrasion resistance, can be sterilized and is suitable for use at temperatures of up to 130°C.w	Grand Maître  130
Beechwood*	European beech is a hard wood that is ideal for work knives. Most knife blocks are also made of beech. This wood is FSC-certified (pure).	Storage + Cutting Boards

* All products with wooden handles are not dishwasher safe.

FOOD SAFETY BUILT INTO EVERY KNIFE

HACCP CONCEPT

HAZARD ANALYSIS CRITICAL CONTROL POINTS

Fibrox handles are made from thermoplastic elastomers (TPE). They feature excellent non-slip properties, can be used at temperatures of up to 80 – 110°C and can also be sterilized. These properties are ideal for ensuring their safe use in a professional environment. To make the different applications for all knives visible, we offer many Fibrox models in 6 colors. This corresponds to the internationally recognized HACCP system for risk management and safeguards a high level of safety in food processing.

We offer a choice of handle color. This is ideal for those using the knives professionally – knives can be color-coded according to their use, e.g. red handles for meat, green handles for vegetables etc. The colored handles can also be used to differentiate between e.g. the morning and the afternoon shift in a busy working environment.

Red

■ Beef, morning shift

Blue

■ Fish, midday shift

Black

■ Allrounder, evening shift

UNIVERSEL

Green

■ Vegetables, 1st working shift

White

■ Lamb, 2st working shift

Yellow

■ Chicken, 3st working shift

NSF/ANSI 2

NSF International is a recognized global independent organization whose responsibility lies in the development of public health standards and certification programs. Only products that meet NSF International standards are certified and must bear the NSF icon. All products that have been tested by NSF International in this catalog and meet the guidelines of NSF/ANSI 2 and all other applicable requirements are marked with the NSF icon.

QR-CODE

The identification of individual knives is now well established in the meat and food industries and has been identified as an important need.

It is now compulsory for businesses to have a material management system which manages knives and tools in use.

Data on the user, company name and issue date can be accessed via a QR code, which can also help to facilitate entry and exit checks, both for knives and for personnel.

PACKAGING

SB-SHEATH

S-sheath for blade protection, SB-sheath for self service.

FOLDING BOX

DISPOSABLE BLADE PROTECTION

The majority of the single-packed vegetable knives from the Swiss Classic and Standard lines, are provided with disposable blade protection. Mostly available in sales units of 20 pieces.

FORM AND FUNCTION

SHAPING KNIFE

Bird's Beak edge

for decorating and garnishing
with fruit and vegetables

KITCHEN KNIFE

Straight edge

for cutting smaller
fruit and vegetables

STEAK KNIFE

Straight edge

for cutting cooked
or grilled meat

FISH FILLETING KNIFE

Super flexible blade

for filleting fish

KITCHEN CLEAVER

Heavy solid blade

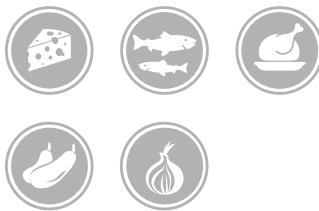

for chopping bones and raw fish

SANTOKU KNIFE

Fluted edge

all-rounder for
precision cutting

CARVING KNIFE

Straight edge

for slicing cooked
or grilled meat

CARVING KNIFE

Extra-wide blade

for slicing larger foods

BREAD KNIFE

Wavy edge

for cutting a variety of
baked goods with crusts

PASTRY KNIFE

Wavy edge

for cutting cakes,
pastries and bread

SALMON KNIFE

Fluted edge

perfect for filleting
salmon

CORRECT HANDLING AND CARE

THE BLADE

Regular care is needed to make sure a blade remains in top condition. To make sure it lasts, clean your knife with a mild detergent under running water immediately after use. Salty or acidic food particles may leave marks if they are left on the blade over a long period of time. Icons on the packaging indicate whether a knife is dishwasher safe. Highly polished knives should only be used for cutting, not for prying anything open or hacking things apart. For bones or similar materials, please use the robust Victorinox products made for that purpose (e.g. Cleaver).

SHARPENING

Proper care also means that the knife should be regularly re-sharpened, depending on use/need, so that it retains its sharpness.

THE SHARPENING STEEL

Cleaning your sharpening steel keeps it hygienic and in the best condition. It should be washed with a mild detergent under running water and let dry completely. Store the sharpening steel in a knife block if possible.

WOODEN HANDLES

(e.g. Wood)

Wood is an extremely robust, hardwearing wood and, thanks to its naturally high oil content, is also highly resistant to moisture. To maximize the service life of knives with wooden handles, never wash them in a dishwasher.

SYNTHETIC HANDLES

(e.g. Swiss Classic)

The synthetic handles of our household knives are generally dishwasher safe, but we still recommend you wash them by hand.

EPICUREAN CUTTING BOARDS

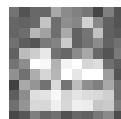

To clean your Epicurean cutting board, wash it in hot, soapy water or simply run it through your dishwasher. Its cutting surface is made from a paper composite product (except Eco Plastic items), so it can warp if left in wet or damp conditions for long periods of time. To avoid this, thoroughly dry the surface by leaving it upright and on edge before storing. Epicurean cutting surfaces are stain-resistant, but, as with most materials, there is a possibility of staining when left in contact with highly alkaline products or foods over time. A few examples are liver, papayas, and red beets. To remove stubborn stains, try a non-abrasive household cleaner.

PROTECTIVE WAX

This proprietary blend of mineral oil and beeswax is designed specifically to restore, condition, preserve and maintain the luster of any wood boards, as well as the complete line of Epicurean wood composite cutting boards and kitchen tools. It can also be used for wooden knife handles or wooden tables, chairs, etc.

DISHWASHER SAFE

All dishwasher safe products are marked with a corresponding icon. Please make sure that knives do not touch other metal utensils in the cutlery basket. You may notice a change in color intensity and rusting over the long term. Forged knives with a polyoxymethylene (POM) handle are dishwasher safe, but we recommend you clean them by hand. dishwasher safe products bear the portrayed icon and can be cleaned in the dishwasher. Please make sure that the knives do not touch other metal utensils in the cutlery basket. In the long run, a change in color intensity and rusting may occur. Forged knives with POM handle are dishwasher safe. It is however recommended, to clean the product by hand.

STERILIZABILITY FOR PROFESSIONAL KNIVES

"Professional" knives and tools that are in direct contact with food require special care when cleaning in order to be constantly aseptic and free from dangerous bacteria. It is therefore very important that the handle material can withstand the high temperatures required during sterilization. Victorinox professional knives can be sterilized up to 110 °, depending on the knife category.

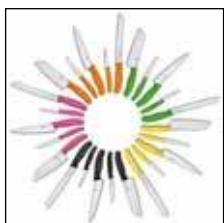

SWISS CLASSIC

VIBRANT HELPERS FOR EVERY APPLICATION

- Light, agile, and colorful knives made in Switzerland
- Ergonomically shaped handles for effortless work
- With stainless steel, dishwasher-safe blades

Every kitchen task, from the minute to the mammoth, was considered in the development of the Victorinox Swiss Classic Collection. These Swiss-made pieces are lightweight and dishwasher safe, crafted from high quality stainless steel. To add a pop of freshness and color to the kitchen, there is a choice of vibrant-toned handles. A collection that combines functionality with fun, it also offers a range of useful knife blocks and gift sets. There's nothing this versatile collection doesn't cover.

SWISS MODERN

HEAVENLY CONNECTIONS OF PRECISION AND DESIGN

- The perfect companion for everyday kitchen tasks
- Elegant design in walnut wood and on-trend pastels
- Features Swiss made durable stainless steel blades

Elegant design meets knife-edge precision in the Swiss Modern Collection. Every blade is formed of wear-resistant stainless steel to enable effortless cutting. Crafted with richly grained, unique handles in warm European walnut wood or with synthetic handles in vibrant colors or classy black, these pieces are ergonomically shaped to keep the hand comfortable during repeated chopping or slicing tasks. This standout collection marks a contemporary update of mankind's most important tool.

FIBROX

DESIGNED BY PROFESSIONALS, FOR PROFESSIONALS

- Nonslip handles guarantee safe work
- Exceptional edge retention for a long life-span
- Offering pronounced sharpness and maximum stability

Created with professional chefs in mind but used and loved by home cooks around the world as well, the Fibrox Collection offers optimal performance and precision cutting. Featuring nonslip ergonomic handles, these pieces support the hand and wrist, making cooking and preparing food a joy. Supersharp stainless steel blades slice smoothly through even the toughest cuts of meat, while specific knives for tasks, like making pastry or filleting fish, take care of every aspect of culinary life.

SWIBO

SPECIAL HANDLES FOR MAXIMUM SAFETY

- With special handle shape for extra safe cutting
- Precision guarantees the perfect cut
- Easy visibility thanks to signal-colored handles

The Swibo Collection was created to optimize safety in the kitchen. In a busy working environment, it's easy for equipment to go unseen or be misused, which is why these knives feature a bold orange handle to signal their presence. For extra cutting security, the handle is extended toward the blade, giving greater control and precision, and the sharp, polished blade slices smoothly through whatever is put in front of it. It's a safety-conscious collection.

WOOD

NATURALLY CONVINCING AND SMART KNIVES

- Sustainable wooden handles with a unique grain
- Easy handling for effortless work
- Ergonomically designed with resilient materials

The Wood Collection from Victorinox combines ergonomic handles in naturally strong, visually appealing wood with ultra-sharp, efficient stainless steel blades. Used for centuries as an ideal material for knife handles, wood is highly robust, warm to the touch and gives each piece a unique patina. This range consists of elegant knives for every culinary task, from pastry making to carving roasts. It offers a choice from wide and narrow blades with straight or curved backs to Santoku-style blades with or without a fluted edge.

GRAND MAÎTRE

CONFIDENCE AND PLEASURE IN CRAFTSMANSHIP

- Forged from one piece and hardened evenly
- Perfect balance for comfortable work
- Timeless design, built for longevity

For amateur cooks and professional chefs alike, the Grand Maître Collection is all about balance. Each piece in this sought-after range is uniformly hardened and forged from a single piece. This construction method means the transition from blade to handle is sleekly seamless, offering great control and precision with every slice. The ergonomically shaped handle ensures comfort even over sustained periods. It's perfect craftsmanship that pays off every day.

STORAGE + CUTTING BOARDS

ALWAYS-AT-HAND SOLUTIONS FOR BUSY KITCHENS

- Safe storage solutions crafted from robust materials
- Innovative and functional additions for the kitchen
- Blade-protecting and heat-resistant cutting boards

The Storage and Cutting Boards Collection was created to bring the efficiency and ease of professional tools into everyone's daily lives. Combining high functionality with refined, ergonomic design, these compact pieces play an essential role in the efficient organisation of the modern home. Cutlery blocks and in-drawer knife holders made from beech wood ensure a clean working surface and organized drawers, while the cutting boards crafted from dishwasher-proof, environmentally friendly wood fiber bring elegance and functionality to everyday tasks.

KITCHEN UTENSILS

MULTITASKING AND EASY-TO-USE KITCHEN GADGETS

- Robust and durable tools for a variety of tasks
- Easy-to-use kitchen gadgets with high functionality
- Crafted with expertise and top design credentials

The right kitchen utensils make for easy cooking, helping the professional and home chef alike create delicious dishes and gather loved ones together over a meal. The Kitchen Utensils distinguish themselves by their classic design and attention to detail. Using high-quality materials, this range understands what cooks need and offers coordinated, functional items for every kitchen task. From the grater with razor-sharp blades on both sides to the nimble tomato peeler, these are the right essentials.

SHARPENING + SAFETY

SIMPLE, SAFE AND EFFECTIVE SOLUTIONS

- Sharpening steels with safe-grip ergonomic handles
- Practical, efficient and easy-to-use
- Rust resistant materials guarantee a long service life

Sharp knives equal easy and successful cooking. Our selected collection of sharpening tools ensures greater safety and precision in the kitchen by keeping knife blades in top condition at all times. The wide range of sharpening steels is complemented by the Victorinox Sharpy with a bevel, the compact Dual knife sharpener, and the innovative sharpener with ceramic rolls for pre-grinding and polishing. The easy and effective handling make these pieces truly stand out.

SCISSORS

TOOL THAT ALWAYS PERFORM THE PERFECT CUT

- Offering high functionality for specialized use
- Extensive selection of scissors for all kinds of tasks
- Crafted from high quality, durable materials

Clean clips and crisp lines: A pair of precision scissors is an essential item in every household. Manufactured by renowned European producers, the Scissors Collection features sleek, ultra-sharp stainless steel blades with durable handles for everyday use or specialized professional tasks. Including a special ergonomic design for left-handed users as well as children's scissors that are perfect for small hands and young crafters, this collection has scissors for every cutting need.

TRUE, AUTHENTIC FANS: MEET OUR BRAND AMBASSADOR NENAD MLINAREVIC

Award-winning chef Nenad Mlinarevic creates gorgeous meals from locally sourced, quality ingredients. His strong connection to Switzerland is one of the reasons why he has chosen to partner with Victorinox. “A Victorinox knife was the first knife I held in my hands when I was 16 and starting my training. So I feel a special bond with this brand. These knives have been an authentic part of my journey so far”.

CORPORATE BUSINESS ICONIC DESIGN FOR THE KITCHEN

Our household knives and accessories make thoughtful gifts your clients will love to used. Put a smile on their face with a personalized edition of a colorful set of kitchen tools or a precision chef's knife. Choose from laser engraving, 3D printing, etching and more to add your company's touch to these iconic knives. Your clients and employees will thank you right back.
